October Field Trip Report –George Heaton

The field trip for October will be our Gem and Mineral Show at the Marshall Street Armory October 25-27. I hope all of our members will be willing to participate in this event by working at one or more of the many jobs that must be done to put on a good show. The Children's Table will need lots of help, especially during the school tours on Friday morning. And, George would like enough help on Saturday and Sunday so he can goof-off now and then and look at stuff, have a snack, check the silent auction, etc.

Corresponding Secretary Report – Mary Gowans

A sympathy card was sent to Peter Tack. Mary Gowans attended Betty Tack's memorial service and a thank you was received from the family. Calls of greeting were made to Bessie Rogers and Mary Kay Bean.

A HUGE THANK YOU to Roger and Lee Laylin who have agreed to take over the newsletter upon my "maternity leave." What a huge relief!!!!

Are you feeling hospitable?

For the last several years, Phyllis White has coordinated our after meeting refreshments. Phyllis is no longer able to drive at night and is requesting a replacement. The job includes stocking the hospitality supplies (paper products, coffee, etc.) and finding someone for each month to make coffee & put out the goodies. If this sounds like a job you could handle, please contact Membership Chair Gail Hopkins.

Library News

At the end of this newsletter is a repeat of last month's library **survey**. Please take the time to let our Club Librarian, Lee Laylin, know your druthers!

Also, Lee is hoping to update our **state folders**. Do you have any recent maps or geological information from another state that you would be willing to donate? Keep an eye out for relevant info as you travel please!

Hey! Have you paid your dues yet? If not get the bucks to Ernie Aughenbach PDQ. Adults \$5.00, Students under 18 \$1.00. See Ernie at the meeting or show, or mail your dues to him at PO Box 67, St. Johns MI 48879-0067.

Show Stuff: What can you do to help out?

- 1. Spread the word about the show.** Tell your friends (and enemies). Post a flier!
 - 2. Bring a display.** We have lots of room for displays; and, this gives folks a reason to linger at the show a little longer. Fill out the form in this newsletter and get it to Neil Snapp.
 - 3. Bring some nice material for the kids table.** This & the silent auction are our greatest sources of revenue. Nice stuff, more bucks. **But please, please, please make sure anything you bring is labeled & priced!**
 - 4. Bring a door prize or raffle prize.** Good raffle prizes, more raffle tickets sold. Nice door prizes, happy visitors. Happy visitors come back.
 - 5. Donate a little something for the hospitality area.** Donations of sweet snacks, salty snacks, or healthy snacks will be graciously accepted at any time. **Remember, there is NO REFRIDGERATOR and no kitchen prep area.** Good snacks make for happy dealers and happy club workers.
 - 6. Pitch in and work! Those who work two hours earn free admission to the show!**
- **Thursday** 9:00am meet at Turner's house to begin hauling rock, signs, equipment etc. to the fairgrounds. Set up runs through the evening, usually until about 9:00pm.

-- **Friday** 8:30 ish am to 1:00 p.m. The invasion of over 1000 school children! We need help selling minerals to these young'uns and monitoring their behavior. Dress comfortably & be ready to hustle!

--At 1:00 there is a flurry of activity to rearrange things a bit to accommodate the arrival of our dealers, and reorganize the kids table and silent auction for the evening.

--**During Show Hours:** Stop by and say "What can I do to help?"

September Field Trip –Flint Ridge, Ohio – George Heaton

My brother Roger, his wife Elsie and I went to Flint Ridge on Saturday, August 31. We decided to go first to the Nethers Farm to collect our flint before going to the Flint Nappers show held at the Flint Ridge Park and Museum. At the farm there were some flint nappers doing the hard work digging flint down in the pits. The need the solid stuff free of the crystal cavities that would interest the mineral or lapidary person.

My brother and I collected about 190 lb. of flint. Some had cavities with quartz crystals and I hope some will have good color and patterns when cut so I will have some nice slabs for swapping material.

At the show there were many dealers selling the materials and tools need to make flint points and knives, people demonstrating their art of chipping flint arrow and spear points, and others demonstrating arrow and bow making. It is amazing how quickly a good napper can produce a beautiful flint point or knife.

I did not see anyone from our Lansing club, but since I did not specify any specific meeting place or time, I could have easily missed them.
